Each photography session in the studio lasts about 45 minutes. After your photo shoot, we will take another 30 minutes to generate a preview CD of all good exposures (typically 80 to 120) taken during your session.

You can bring the preview CD home for your selection at your own time. There are no pressure sales tactics.

Because we believe in the quality of our work.

All selected images will be edited for color, contrast, saturation, cropping, *and* light facial touchups.
